

# The Inaugural Biomechanical Engineering and Anthropometry Meeting (BEAM)

12-14 March 2024

## Call for Presentations

Areas of interest for this year's meeting include but are not limited to:

- o 3D Scanning
- o Anthropometry
- o Anthropometric Surveys
- o Biomechanics
- o Cockpit and Workstation Accommodation
- o Digital Human Modeling
- o Female Fitment & Women's Initiatives
- o Human Factors
- o Injury Prevention
- o Manikin Studies
- o Military Entrance Requirements
- o Military Uniforms
- o Personal Protective Equipment (PPE)

### **Abstract Calls Open NOW**

Deadline for Abstract Submission is:

**February 2, 2024, 11:59 EST**

### **Submission Guidelines**

#### **Briefings**

Submit a 300-word abstract (electronically using the online abstract submission portal) to the BEAM committee through the BEAM website: <https://sentirlabs.com/beam-home/presenters-registration-and-info/>. Abstracts should include:

- I. Title, Authors
- II. Introduction
- III. Methods
- IV. Results & Discussion

Your abstract will need to be converted to a PDF prior to submission via the online portal.

#### **Panels (Consisting of 3 to 5 Briefings)**

Submit 3 to 5 abstracts that share a similar theme (following the above formatting) via the BEAM website: <https://sentirlabs.com/beam-home/presenters-registration-and-info/>

The submitting author will be notified when abstracts are selected for inclusion. As the schedule is finalized you will receive additional guidance on time allotment and available presentation equipment.

Meeting proceedings, including available presentations, will be distributed to all attendees following the event's conclusion.

**Distribution A is required for all abstracts and BEAM presentations. Please refer to your organization's public release process.**
